ABSTRACT
Now a days kasa is common complaint in OPD or IPD patients. Number of drug formulations available such as Sitopaladi choorna, talisadi vati, lawangadi samashirkara choorna etc but “Abhyadhi choorna” is unique combination Because kaphaj kasa is Amashyaudhbha vyadhi and Dipan, pachan is qualities. The present case study is successful management of kaphaj kasa. A 21yr old male patient came to opd with chief complaint of Kasa vega, Kaphaj Shitivan, Shirogawravata, Pinas, Kshudamandhya. Which get relief within 10 days with “Abhyadhi Choorna”.

KEYWORDS: Abhyadhi Choorna, Kaphaj kasa.

INTRODUCTION
Ayurveda is science of natural life, which cure not only disease condition but also promote a healthy life. Today’s changing in environment which expose number of unnatural substance’s by pollution, over population, industrialization etc. this occult factors impact on health and causes so many Respiratory Disorders. In现代 science cough is most frequent symptom in all respiratory disorders. But in Ayurvedic literature kasa is explained independent disease. In Kasa-disease most of the pranvha-strotas mostly involved. kasa has 5 types like Vataj, Pittaj, Kaphaj, Shatay, Shayaj etc. Abhyadhi choorna is mentioned in Kalyan karakam is Jain religious Grantha.

A case report as follow: The present case study is successful Ayurvedic management of a case of kaphaj kasa.
A 21yr old male patient came to opd with us a chief complaint of:
1. Kasa vega
2. kaphaj shitivan
3. Pinas
4. Shirogawravata
5. Kshudamandya
Patient had above complaint since last 5 days.

History of personal illness
The patient was normal since 5 days back, then he was suffering from Kasa vega, Kaphaj shitivan, Pinas, Shirogawravata, Kshudamandya. He had also taken some cough syrup and antibiotics but nothing relief from above symptoms then he had come to our hospital- Seth Sakaharam Nemchand Jain Ayurvedic Rugnaalya in Kayachikitsa department OPD for Ayurvedic treatment.

General examination
Nadi (Pulse): Kaphapradhan, Vatanubandhi, 76/min
Mala (stool): samyaka malapravartana
Mutra(Urine): samaka Mutrapravartana
Shabda(Speech): Prakrut
Bala: Madhyam
Sparsh(Skin): Snigdha, Mrudu
Druk(Eyes): Prakruto
Akruti: Madhyama
Jiva(Toung): Sama(coated)
Agani: Mandya
RS: Whezing
B.P: 124/90 mm of Hg.

AIM AND OBJECTIVE
“Study efficacy of Abhayadi Choorna in kaphaj kasa.”

Types of Study
A single case study- Prospective.

Study Center
Seth Sakaharam Nemchand Jain Ayurvedic Hospital, Solapur.
MATERIAL AND METHOD
Abhayadi choorna- Aushadi Yoga.

DISCUSSION
In this case, patient came with sympotms Kasa vega, kaphaj shitvan, Kshudamandya, Pinas, Shirogawravata since 5 days. This symptoms are purely kaphaj kasa. Ideal treatment in this condition is Vatamloman, Aam-pachan, Dipan Pachan & Strotoviband-nasan. The properties of “Abhayadi-choorna” is Dipan, Pachan and Vatamloman. Therefore this choorna is very effective in treatment of kaphaj kasa.

RESULTS
The Kaphaj kasa shows complete resolution at the end of 10 days. Only oral remedy of “Abhayadi choorna” is very effective for above symptoms. Though on the basis of single kasa study, we can’t say that this hypothesis to be true but it could guide us for further clinical trials.
